

## MESSAGE

We are living in a time where the world is open to us. Our need to communicate and reach out to others regardless of distance is now made possible through social media. It has provided us with more options and the means to engage with people more efficiently and effectively. Social media has become indispensable in our daily lives.

Inasmuch as social media has become part of our daily lives, re-launching our new FIN website on this Jubilee Year of Mercy is the most opportune time. It is our hope that our new website will be an effective medium to express God's compassion, tenderness and forgiveness. As we innovate our way of communicating, we pray that our encounter through social media will improve our relationships, be more engaged in a meaningful discussion, know and understand one another better, and create a healthy, free, and fraternal closeness in the spirit and charism of St. John Bosco.

May our interactions and engagements through our new website convey the tenderness of God's mercy and carry the touch of God's power that leads to greater openness and sharing.

We extend our gratitude to the Commission on Social Communication for initiating this innovation upon which we can all the more provide meaningful presence to one another and to the youth to whom we are sent.

In Don Bosco,

(Sgd.)

FR. ANTHONY PAUL E. BICOMONG, SDB  
Provincial Superior - FIN Province
